Trust The Experts

Ashworth invented the first spiral more than 40 years ago. For over four decades, we've pioneered belt advancements that maximize throughput while minimizing life-cycle costs, and have been granted more patents than any other spiral belt manufacturer. Today, Ashworth continues to innovate the future and remains the world's leading manufacturer of spiral belts. *Put your confidence in Ashworth!*

CONVEYOR BELTS
METAL OR PLASTIC
LOTENSION OR SELF-STACKING

The Right Belt

Ashworth is the world's only company that manufactures both **metal and plastic** conveyor belts for both **lotension and self-stacking** spiral systems to provide the right belt for your specific requirements.

*Increase capacity and maximize efficiency
